Call before you dig.

Service Tech Corner

Iowa law requires you to call Iowa One Call at least 48 hours in advance in order to minimize the risk of damaging any type of underground facilities (electric, gas, telecommunications, water and sewer).
This service is free.

All excavators shall notify Iowa One Call at least 48 hours prior to excavating (excluding weekends and legal holidays). Upon notifying Iowa One Call, excavators will be given a confirmation number, often referred to as a "dig-ticket", which excavators should keep as a reference for each excavation. Iowa One Call keeps all dig-tickets on file for six years. Iowa law requires the person actually doing the digging (excavating) to notify Iowa One Call with locate request information. Excavators may not use a dig-ticket established by another excavator. Contractors and sub-contractors may not use the same dig-ticket. If a professional excavator (contractor) is hired by a homeowner to perform an excavation, it is the professional excavator who must notify Iowa One Call – not the homeowner.
