SPECIAL!**

Sign up now through  
November 30 to  
receive 3 months of  
our 512k/256k  
internet service for

**\$19.95**

## Service Tech Corner

If you have lost or misplaced any pictures on your computer and want to retrieve them there is a free program out there for you. The program is called Picasa and can be downloaded at [www.Picasa.google.com](http://www.Picasa.google.com). With this program you can also do digital photo editing and emailing. Once Picasa is installed it scans your computer's hard drive searching for all pictures. Once Picasa has located all your pictures it will display them within the program but not move them off your hard drive. However, Picasa will tell you where they are located so you can navigate to your lost or misplaced pictures. If you have any questions about Picasa, give us a call at 773-2213.

## **DON'T FORGET!!!**
