NATIONAL DO NOT CALL REGISTRY

What you NEED to know!

The National Do Not Call Registry is open for business, putting consumers in charge of the telemarketing calls they get at home. The Federal government created the national registry to make it easier and more efficient for you to stop getting telemarketing calls you don't want. You can register online at WWW.DONOTCALL.GOV or call toll-free, 1-888-382-1222 (TTY 1-866-290-4236), from the number you wish to register. Registration is free. Most telemarketers should not call your number once it has been on the registry for 31 days. If they do, you can file a complaint on their Website. You can register your home or mobile phone for free. This registry does exclude you from receiving calls from telemarketers and other sales representatives, however it DOES NOT exclude you from non profit organizations lists. Non profit organizations are still allowed to call you, but use caution when dealing with these organizations for you may become more susceptible to other organizations calling. It has been our personal experiences that once you donate to one charitable fund, your phone number is than cycled through a list for other non profit organizations.

Service Tech Corner

Tired of pesky telemarketing and automated phone calls? Subscribe to our Telemarketing Do Not Disturb. This feature allows you to inform callers that you do not wish to receive telemarketing calls. When this is active, callers will receive a message stating that this subscriber does not accept telemarketing calls. It then states if you are a telemarketer to hang up immediately, and if you are not to push 1. After pressing 1 the calling party is forwarded to your phone at which time your phone will ring. This will eliminate all telemarketing calls that are not originated from nonprofit organizations. This feature is only \$1.00 a month. If you have any questions, give us a call at 563.773.2213.
