Network Maintenance Service Phased Out

Customers who subscribe to Network Maintenance will notice the charge for this service removed from their bills as of January 1st, 2017. The program is being discontinued so our technicians can focus more time on the fiber cable project. However, we do recognize the growing need for support on customer-owned devices, and we are thoroughly investigating other ways to meet this need. In the meantime, our technicians are still available for appointments on an as-needed basis.
