

New TV Pricing Effective March 1st, 2021

Networks and media groups raise television programming costs each year. We do our best to minimize the impact of these increases and to offer affordable options for the communities we serve.

Below are the new TV lineup prices, effective 3/1/2021. Digital television service is available to areas where buried fiber optic cable has been deployed.

See page 2 for the current channel lineup listings.

New per month TV lineup pricing, effective March 1, 2021:

- ◆ Basic lineup: increased from 42.95 to 47.95
- ◆ Basic Plus lineup: increased from 89.95 to 99.95
- ◆ Expanded lineup: increased from 99.95 to 108.95

One standard set-top box is still included with the service. Each additional standard set-top box remains 5.99 per month.

Whole-home DVR service remains 18.00 per month, and still includes the DVR set-top box.

Replace a failing router before it becomes an emergency.

Don't wait until your router has completely failed to replace it. Warning signs of a failing router include frequent router reboots to regain wireless signal, or a signal that goes out and comes back on its own. Many variables can affect the life of a router, such as age, workload, and router grade.

The Smart-RG commercial-grade router is available for sale or monthly rental from the phone company. Technician time is limited; if you need assistance installing the Smart-RG, please call the business office to schedule an appointment soon.
